

# MD TANZIL EKRAM

## OBJECTIVE

My career objective is to work in a learning and challenging environment, utilizing my skills and knowledge to the best of my abilities and contribute positively to growth of the organization as well as to enrich my knowledge.

## EXPERIENCE

**July 2023 - Present**

HostBooks Limited | Gurugram

### Software Developer

- Developed interactive and responsive user interfaces for the TMS application using HTML5, CSS3, TypeScript and Angular components.
- Utilized Angular services to manage data retrieval.
- Proficiently utilized REST APIs using Spring Boot controllers to seamlessly retrieve and display data from databases, optimizing efficiency in data handling and presentation.
- Created Database Tables to store structured data efficiently.
- Utilized SQL queries to define and maintain table schemas, including data types, constraints and ensuring data integrity through updates and modifications.
- Collaborated with QA team members to maintain code quality.
- Debugged and fixed issues promptly, ensuring minimal downtime and optimal user experience.

## PROJECTS

### Headline Horizon

*Angular, HTML5, CSS3, TypeScript*

- Developed a web application for presenting news headlines.
- Retrieved news data from external APIs to display dynamic information on the user interface.
- Enhanced the application with the capability to view news based on specific topics.
- [View Project](#)

### CricLiveScores

*Angular, HTML5, CSS3, TypeScript, Java, Spring Boot, Jsoup*

- Developed a Cricket Live Score web application from scratch utilizing a modern tech stack, including HTML5, Tailwind CSS, Angular, TypeScript, Java, Spring Boot and MySQL.
- Implemented RESTful APIs using Spring Boot to fetch live cricket scores, match information, and tournament data.
- Integrated Jsoup library for web scraping to extract live news and match information from external sources.
- Created responsive Angular components to display live match scores & historical match data.
- Designed and implemented a data model for storing match information using Spring Data JPA.
- [View Project](#)

### Employee Management Application

*Angular, Java, Spring Boot, MySQL*

- Created an web application capable of creating, retrieving, updating, and deleting data.
- The Front-end side is made with Angular components, HTML5, CSS3.
- The back-end server uses Spring Boot with Spring Web MVC for REST APIs.
- Spring Data JPA for interacting with the MySQL database.
- [View Project](#)

### Aahar Adda Catering Service

*HTML5, CSS3, Angular, JavaScript, Spring Boot*

- Developed a Catering Service web application from scratch using a modern tech stack, including HTML5, CSS3, Angular, JavaScript, and Spring Boot.
- Designed and implemented RESTful APIs using Spring Boot controllers to enable communication between the front-end and back-end.
- Created an admin panel that allow admin to update pricing, manage content, access booking details.

## EDUCATION

2018-2022

**B.Tech (CSE) - 7.28 SGPA**

Galgotias College of Engineering and Technology

2015-2017

**Senior Secondary (PCM) - 77.4 %**

Patna High School

## SKILLS

### Programming

- Core Java
- JavaScript
- HTML5
- TypeScript
- CSS3
- MySQL

### Framework

- Angular
- Spring Boot
- Bootstrap
- Node.js
- Tailwind CSS
- Jsoup

### Softwares

- Microsoft office
- Visual Studio Code
- IntelliJ IDEA
- Spring Tool Suite 4
- Postman
- MySQL Workbench

### Version Control

- GitHub
- Git Bash

### Soft Skills

- Leadership
- Active Listening
- Teamwork
- Adaptability
- Leadership
- Goal Oriented
